EQUIPMENT LIST

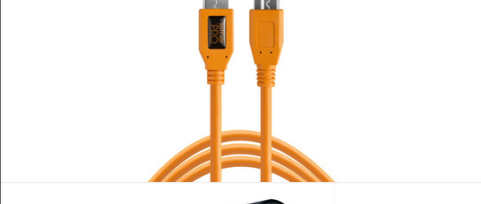

ITEM	DESCRIPTION
	Elinchrom ELC 500 Studio strobe light, with fast recharging timings. We have color filters and various softboxes for these light.
	Nanlite Forza 500 II Constant LED light, with precise white balance and intensity control. Could be converted to color light with filters.
	Nanlite Fresnel Lens FL-20G Enhances the versatility of Nanlite lights by providing an adjustable beam angle, ranging from 10 to 45 degrees, allowing for precise and focused illumination
	Amaran 300c RGB Constant LED RGB light.
	Nanlite Projektor Lens PJ-BM-19 This lens attachment transforms the light source into a spotlight with a distinct 19-degree beam angle, providing focused and directional illumination.
	CineTube HUE 120 - RGBWW Versatile tube light with vibrant RGB and warm white LEDs for dynamic effects. Enables seamless color mixing and adjustable temperature, making it a great tool for customisable lighting setups in various applications.
	Dedolight DLHM4-300 Compact and powerful tungsten circle light with a 300-watt halogen lamp. Ideal for video and photography, offers precise focusing (soft/sharp light) and excellent beam control.

**ALL EQUIPMENT IS INCLUDED IN THE
RENT OF THE STUDIO**
